

HELLO. We are
Morphoza

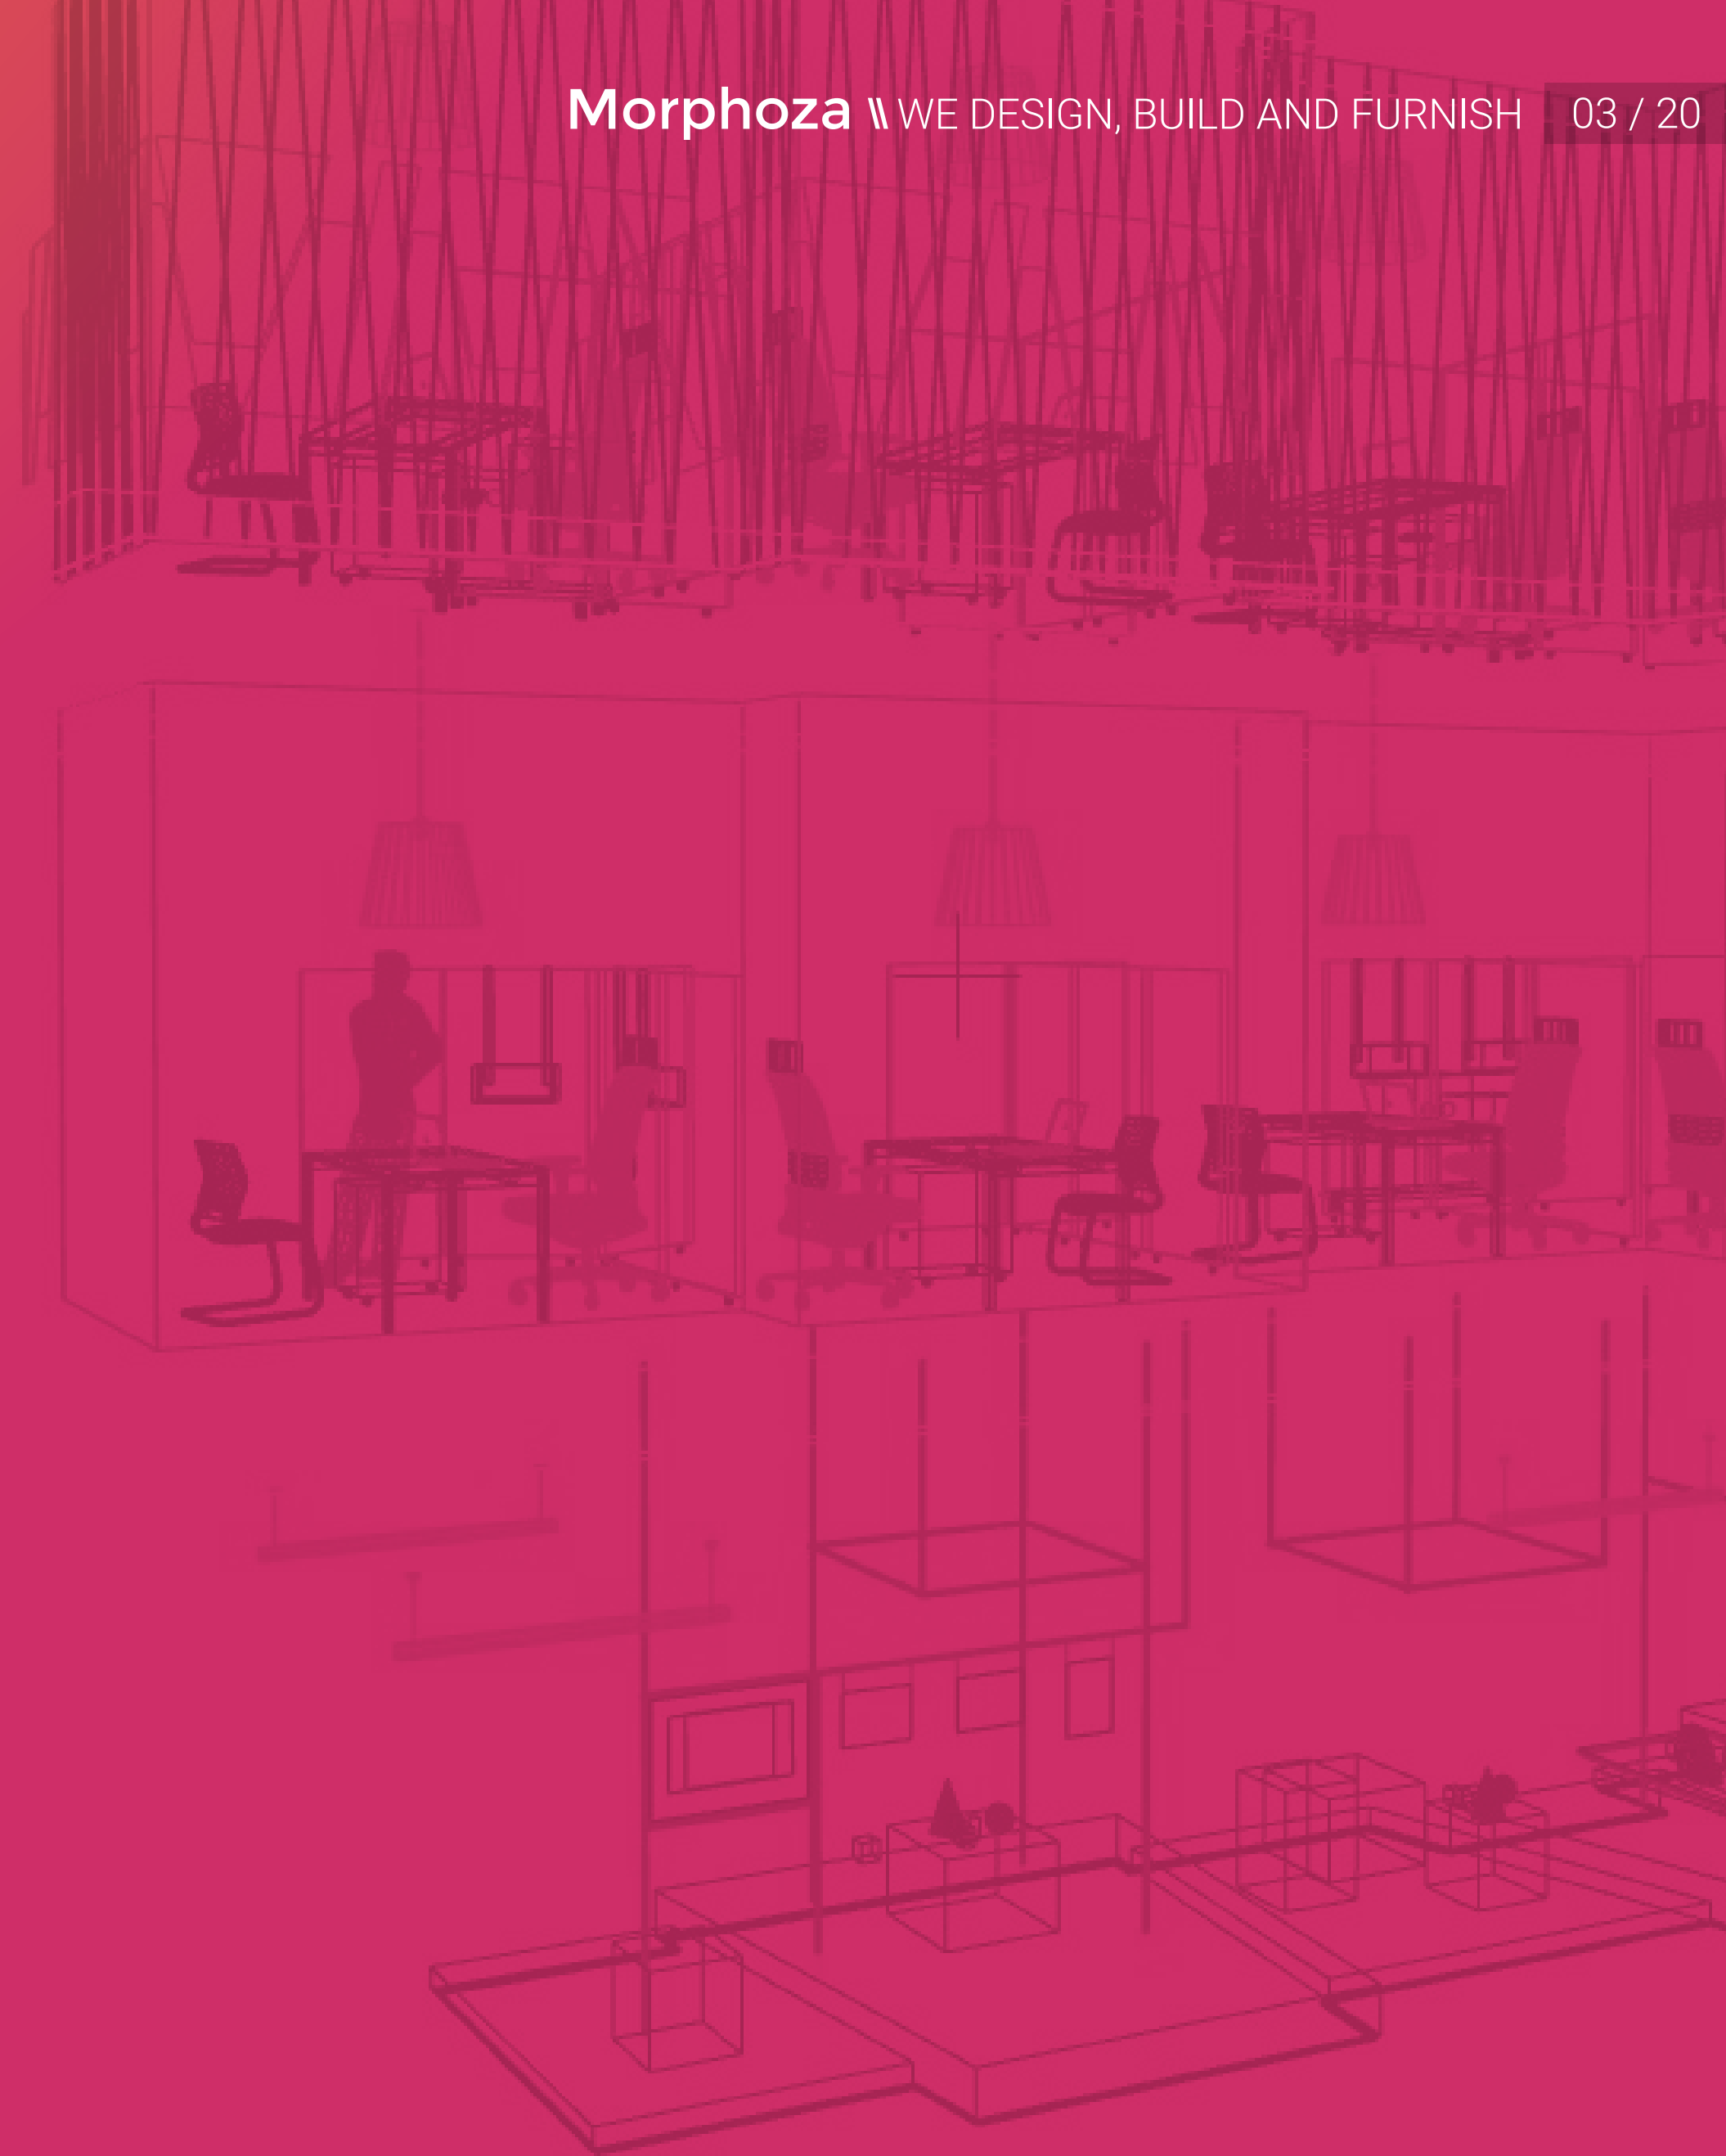

WE DESIGN, BUILD AND FURNISH

fit-out and refurbishment projects, creating inspiring work environments, unique retail spaces and beautiful home atmosphere.

Since
2004

we understand the essence of each project
we work on and we turn it into a genuine, personal
story fitted to the space and fitted for the people.

A man is sitting in a striped hammock in a modern office space. The office has large windows, a yellow wall with a vertical garden, and a yellow stool. The man is wearing a striped shirt and jeans. The text "In more than 10 years, the way people live and work has changed." is overlaid on the image.

**In more than 10 years,
the way people live and
work has changed.**

And so have we. We grew organically and turned a team of enthusiasts into a real family of professionals.

Together, we found a way of doing things better. We created the context in which, on the one side, our client's needs and expectations come first and, on the other side, our team is ready to take responsibility for the whole.

Focused on designing the difference with every project we create, we believe in building strong relationships with our clients. Today, over 50% of our work comes from repeat business or recommendations.

Why Choose Us

Constant support

We coordinate and manage all the works in order to deliver the complete project on budget and on time. That includes finding and managing the external suppliers your project needs. We select them carefully and we can get the best prices from our suppliers. What's more, we take full responsibility for dealing with them all. You will have a single point of contact, an experienced project manager from our part, who will make sure that every detail will be carefully and thoughtfully planned and executed.

Budget Control

We focus on creating a project that is as cost efficient as possible for you. Once we understand your needs and expectations, we offer you financial options that suit your budget. Having a good collaboration with various manufacturers on previous projects, we are able to purchase at the very top of the market whilst providing you with the best price possible.

Why Choose Us

Client orientation

Our clients' satisfaction is a major priority for our company. That's why our client service team will work closely with you to understand your needs, vision and goals, but especially what makes you happy.

In-house resources

We have more than 70 specialists, including architects, designers, technical experts, project managers, account managers and furniture specialists. Briefly, we have all the resources in-house in order to manage and deliver the project within the time, budget and quality standards agreed upon with you. All of our experts get personally involved in their projects and we are sure of their commitment.

We Design, Build and Furnish

Whether you're relocating or refurbishing, we'll design, build and furnish the perfect working environment for you and your team. It will solve functionality issues, improve productivity, attract new staff and retain and engage current staff.
